Corporate Profile

# 01 THE COMPANY

UAS Pharmaceuticals Pty. Ltd. was founded in June 2000 with its head office in Sydney, Australia. It is an Australian owned and operated company. UAS Pharmaceuticals is a quality dermatological brands manufacturing and marketing company and distributes products in the ethical and over-the-counter fields.

## MISSION

UAS Pharmaceuticals mission is to make premium quality dermatological products.

## VISION

Our vision at UAS Pharmaceuticals is to achieve our mission in the quickest sustainable time possible and to uphold the values of the organisation.

We aim to introduce premium quality brands in the dermatology segment and become recognised internationally.

## EXPERTISE

UAS Pharmaceuticals develops, markets & sells high quality dermatological brands to treat the most common dermatological diseases. All the products are topical medications and treat conditions such as:

- Acne Vulgaris
- Atopic Skin
- Sunburn
- Hair Loss
- Hyperpigmentation
- Psoriasis
- Nappy Rash
- Dandruff
- Pruritis
- Eczema
- Contact Dermatitis

## STRENGTH

The strengths of UAS Pharmaceuticals lie to the highest quality ingredients being used in our premium range of products. By using the distinct ingredients, we can guarantee that the entire range of skin care, hair care, and sun care products will be superior to others while being safe and gentle for even the most sensitive of skins.

Being an Australian company, we understand the needs and wants of our valuable customers and by providing the highest standard products based on TGA guidelines, we have a strong foundation to build upon.

We also provide support for our distributors through various sponsorship programs allowing them to add further value to the relationships with their key customers. Developing these relationships and creating brand loyalty is of paramount interest to UAS Pharmaceuticals.

## MANUFACTURING and QUALITY PROCESS

UAS Pharmaceuticals has the unique distinction of being able to **manufacture** our soap free bars from raw materials **directly** to finished products with only a few manufacturers around the world able to claim and provide the same. All our other products are pH balanced, suitable for all skin types and meet both TGA (Australia's regulatory authority for therapeutic goods) and Australian Quality standards. All products are tested and approved by National Association of Testing Authorities, Australia (NATA) accredited independent laboratory in accordance with ISO/IEC 17025.

We develop high quality dermatological brands to treat the most common dermatological diseases.

# 02 THE MARKET

Since the birth of UAS Pharmaceuticals in 2000, the company has highlighted the key and developing areas of dermatology and solely focused on the development of the best possible treatment. The results for patients have been emphatic, so much so that the expansion of our products internationally is on the rise year after year. Eager customers' queries and patients from all over the globe are a regular feature which has resulted in exponential growth.
