WHO ARE WE?

The Organic T-shirt is a family-owned Australian business established in 2011 by Sandro and Stefania. They had set out their principles for their brand from the outset: to manufacture high-quality and sustainable clothing in Australia.

Sandro has extensive experience in the fashion industry, having worked for numerous large brands in both Italy and Australia. On the other hand, Stefania has a background in holistic therapies and loved wearing clothes handmade by her mother when she was a child. Sandro and Stefania firmly believe in the importance of sustainable fashion, and their products reflect that, offering both comfort and value at a fair price.

In 2022, they decided to move from Sydney to the Northern Tablelands to pursue their passion for hiking and bushwalking, as well as to enjoy the peace and stunning scenery. Glen Innes is now home to The Organic T-shirt.

Sandro and Stefania manufacture organic cotton and merino wool clothing in their factory. The fabric used is made in Australia. Organic cotton is a more environmentally-friendly option, and Australian merino wool is perfect for all seasons, as it is warm in winter and cool and comfortable in summer. It is also excellent for hiking, running, and bushwalking and can be worn for everyday use.
