

SKIN CARE PRODUCTS BY REBEKAH

Lavender Indulgence

Pamper yourself with Rebekah's Lavender Indulgence products that will leave you relaxed and rejuvenated. Made with a blend of natural ingredients of luscious oils with moisturizing properties, and skin care agents that heal and repair the skin, our products will leave your face, hand and body feeling soft and smooth.

Our Lavender Indulgence Line uses lavender essential oil as our defining scent. Lavender is one of the oldest known scents used by man, and has been used extensively for centuries by ancient Persians, Greeks and Romans. It is considered a relaxing oil and creates balance as needed.

All our products have been tested on family and friends, never on animals.

Face Cream

Our Face cream is made from a recipe of excellent moisturizers and skin care agents: macadamia oil, wheat germ oil, cocoa and Shea butters, Aloe Vera, Vit A, E and B-5, Rosehip oil, tea tree oil and apricot oil. This cream will give you supple, smooth and healthy looking skin.

Body Butter

Our Body Butter will pamper your skin with a mixture of special ingredients paired with Lavender oil. In this product, you will be lavished with Shea and cocoa butter, an excellent moisturizer and a source of antioxidants with effective healing properties.

Hand & Body Lotion

Our Hand & Body Lotion will soften your skin with lavender oil and hydrating oils from apricot, avocado, jojoba, macadamia, sunflower, tea tree and cocoa butter.

Foot soak

Contains Dead Sea salt, Tea tree oil, mineral clay and mud, Eucalyptus oil and Lavender essential oil.

Benefits from Ingredients:

French Green clay is the common name of mineral clay called Illite, which is valued for its highly absorbent properties. Illite is a bio-mineral, composed of both decomposed plant material and trace minerals such as calcium, aluminum, magnesium, silica, phosphorous, copper and zinc. French green clay has historically been used as a beauty treatment with noted beneficial qualities such as removing impurities and tightening the pores, toning the skin, exfoliating dead skin cells and reducing inflammation in acne. It can also be used as a full-body treatment to soften dry, rough skin.

Dead Sea salt is rich in sodium, potassium, magnesium and bromides. These minerals are used in the treatment of psoriasis, acne and other skin ailments.

Honey is a natural antibacterial product, rich of antioxidants. It is used to treat skin with acne and helps slow down the ageing process.

Tea Tree oil comes from tea tree which is a native Australian bush. Tea Tree oil has antifungal, antiseptic and antibacterial properties.

Mineral clay and mud: these ingredients are sourced from France and the Dead Sea. These ingredients are rich in minerals which are used in treating and healing scars, open wounds and absorbing toxins that contribute to acne and other skin afflictions.

Lavender oil has healing and soothing properties which helps relieve tired and ageing skin. It is the defining scent of the Lavender Indulgence line for Rebekah products.

Eucalyptus oil, an oil common to Australia, has inflammatory, antispasmodic, decongestant, deodorant, antiseptic, antibacterial, stimulating and other medicinal properties making it a suitable ingredient for skin care products.
