LIVESTOCK FEEDERS & HAY CRADLES

Aussie Made,
Built To Last

AUSSIE FEEDERS

About Aussie Feeders

Aussie Feeders is an agricultural equipment manufacturing company based in Woodside, South Australia.

Our innovative design for livestock feeders and hay cradles stems from our identification of a gap in the market for high quality agricultural products which also result in more efficient farming.

With a background in farming from our time in Warrnambool, Victoria, we are deeply knowledgeable with the requirements of agricultural products and understand the features that farmers need and value.

Aussie Made, **Built To Last**

AUSTRALIAN MADE CERTIFICATION

Aussie Feeders is committed to using only Australian made products in the manufacturing of our feeders and chicken nesting trailers.

Aussie Feeders use only certified Australian BlueScope and Orrcon steel for all products. Not only does this guarantee the highest quality steel, but you can also be assured that the steel is processed right here in Australia, which is great for Aussie businesses and job.
