

FLORENCE + MYRTLE

Handmade in Australia

eco-luxe fragrances + skincare

ABOUT US

Florence + Myrtle is an eco-luxe brand established in 2014. The name derives from paternal grandparents on both sides who passed on their love of aromatherapy and natural wellbeing. A deep love of the Australian bush and global wanderings formed the foundation for the products and its ethos.

We make a range of organic cold process soaps using organic butters sourced from co-ops and Victorian olive oil. Our vegan bath bombs are individually handpressed and contain no sulfates. Eco-luxe soy candles are made using non-GM soy wax and handpoured in Melbourne. We only use phthalate free fragrances and essential oils to meet our strict standards. We take pride in the fact that we source sustainable ingredients mainly from local producers and use ethical means to acquire and produce our vegan friendly range.
