

Innovative Vehicle Testing & Diagnostic Products

Introduction

We are an award-winning Australian made and owned manufacturer of state-of-the-art vehicle testing equipment. AutoTest® products are all portable and easy-to-use, making them ideal for regulatory authorities, law enforcement agencies, service testing stations, garages and workshops.

Founded in 2000, our focus is on developing testing and diagnostic instruments. We invest in research and product development, and our in-house product designers and engineers are consistently at the forefront of developments. Our product development program ensures the consistent launch of innovative, new products designed to meet the needs of the automotive industry and changing vehicle safety regulatory requirements.

Product Portfolio

**AutoTest®
Workshop Pro 10**
10" Tablet Based Brake
Meter & Workshop Tool

**AutoStop®
Pedal Effort Sensor**
Brake Tester

**AutoTest®
Headlight Align**
Headlight Aimer

**AutoTest®
Brake Fluid Tester**
Brake Fluid Tester

AutoGas & AutoSmoke
Gas Analyser & Opacity Meter

AutoStop® Maxi
Brake Meter

AutoStop® Heavy
Brake Meter

**AutoLight®, Headlight Align,
& AutoStop® Maxi**
Workshop Roadworthy Kit

**AutoLight® &
AutoLight® PLUS**
Window Tint Meter & Bluetooth opt.

AutoLight® MAGNETIC
Hands-free Window Tint Meter
& Bluetooth opt.

**AutoStop®
Suspension Meter**
Suspension Meter

**AutoStop®
Mini Plus**
Brake Meter

AutoTest® BST-380
Battery System Tester & printer

AutoTest® DSLM
Sound Level Meter

AutoBlast®
Ground Vibration Logger

AutoTest® eNoise
Sound Pressure Meter

AutoTest® BAMBINO
Bear Acoustic Monitor

Supporting Road Safety

A crackdown on illegally dark window tints was a recent road safety initiative from the Victorian Police.

As featured on Channel 9 News, our portable meter measures the percentage of light transmitted through a tinted window with +/- 3% technical accuracy that is impossible through visual inspection, making it an invaluable tool for law enforcement agencies.

Coded 'Operation Halo', the program ran across inner Melbourne and assessed whether the tint level of a vehicle's side and rear windows met the Victorian legal standards in maintaining a visible light transmission (VLT) of at least 35%.

Compact, lightweight, accurate and easy to operate were the founding principles underpinning AutoLight's development, and remain at the heart of its success.

AutoTest's AutoLight appeared on Channel 9 News in April 2016, and featured police officers using AutoLight as part of a Victorian safety initiative.

Premium Tablet Based Decelerometer

AutoTest **Workshop Pro® 10** tablet is both a self-contained brake testing tool and an advanced workshop maintenance tool. Compliant in Australia with roadworthy regulations in WA, QLD, VIC, TAS, SA, NT & ACT.* For ACT the Pedal Effort Sensor is an additional requirement to be compliant.

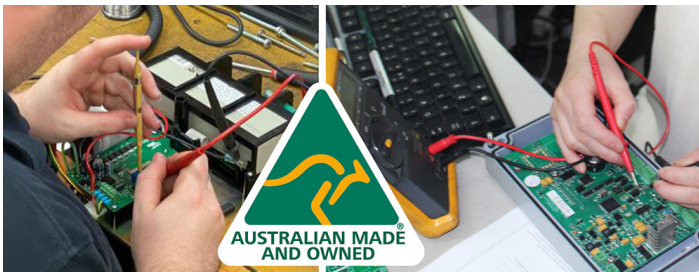

UNIQUE FEATURES

- Intelligent programming
- Records test location with GPS
- Android-based
- Continuous updates
- Able to conduct 800+ tests on a full battery charge
- Ip68 rated
- Decelerometer can be positioned in any orientation
- Automatic level compensation
- WIFI and Bluetooth capability

The Workshop Pro® 10 is compact and complete with a range of unique features. This versatile tablet integrates with many AutoTest diagnostic tools.

Australian Made

AutoTest is proudly Australian Made and Owned. The famous Australian Made logo is the true mark of Aussie authenticity. It's Australia's most trusted, recognised and widely used country of origin symbol, which ensures products that carry the logo are certified as 'genuinely Australian'.

Don't forget to check your paper rolls!

We provides a range of consumables and product specific accessories which are available to purchase from our international distributor network, and directly from our website.

- Replacement paper rolls
- Batteries & chargers
- Cables & adaptors

You can now order these direct from our website:
