MILK POWDER MADE  
IN AUSTRALIA

# THRIVE - EVERY STAGE OF LIFE

## FROM FIELD TO FORMULA

We are a proud 100% Australian owned company that will always stand behind and guarantee the quality of our products. We are a family company that has a passion for excellence and believes that good health is paramount.

Cotton Tree Thrive products are made in the Australian state of Victoria, known for it's green fields and lush landscape. Our production facilities are of the highest standards exceeding Australian and International Dairy Standards with strict quality control protocols.

Our company adopts great care and precision in the production and packaging process and we absolutely guarantee that no product will leave our facility without being compliant with the high standards of Australian food certification, right down to the very last granule!

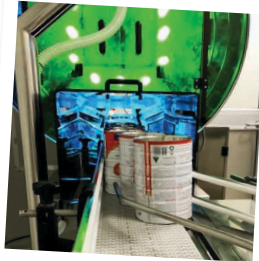

Welcome to our factory in Victoria, the southern part of Australia

## WELCOME TO OUR FACTORY

Victoria is known for green lush fields and fresh air, this is where our milk comes from

In the factory, each tin is treated under ultraviolet light before being filled

The tins are individually filled with the freshly made milk powder

Each tin is individually marked with a batch number and best before date. This way we can track and ensure quality

Every tin is checked prior to packaging to ensure each product meets our high food packaging standards

our milk is now on its way to your local shop for you and your family to enjoy!

# OUR RANGE OF PREMIUM MILK POWDERS

Cotton Tree Thrive specialises in supplying a range of 100% Australian made premium milk powder products. Our company ethos is to source the finest quality milk from Australian dairy farms and blend this with premium ingredients to produce consistent, high quality products in every tin.

## EXPECTANT MOTHERS PRECONCEPTION AND EXPECTING

Cotton Tree Thrive Expectant Mothers Formula is a blend of essential nutrients that support a mother's and baby's health during pregnancy. It contains key nutrients which are important during pregnancy for a mother's wellbeing and for the physical development and growth of her baby.

## INFANT STAGE 1, 2, 3 0 MONTHS - 3 YEARS

Made from nature's best, Thrive's three specialised dairy based powders are enhanced with the right balance of vitamins and minerals to suit each stage of your child's development – so your baby thrives!

## MILK WITH MANUKA AUSTRALIAN HONEY

This delicious new favourite is available both in full cream and skim milk. While having the health benefits of being a good source of Calcium, Vitamin D and Dietary Fibre it's a great choice as an everyday drink or as a healthy treat mixed with fresh fruit in a smoothie.

## SENIORS WELLBEING MEAL REPLACEMENT FOR 50+

Cotton Tree Thrive Seniors Wellbeing Formula is a milk based powder meal replacement that enhances health and vitality in active men and women over 50. This adult formula fulfills age specific nutritional requirements to maintain a healthy heart, mind and body. It is a delicious milk powder formula, low in fat and a good source of calcium, B12 and high quality protein.
