# About Us

Supporting you with a comprehensive range of professional UV fly control units

## Quality Products

Our high-quality insect control products are the preferred choice for many of the world's best 5-star resorts and hotels, franchised food outlets, hospitals, commercial and domestic kitchens, government and public parks and international airports.

- We strive to continue our research and development, manufacturing new and improved products and delivering tangible benefits to public health, the environment and the community through the control of pests, diseases and infection.
- Providing the most cost-effective and eco friendly pest control solutions on the market.
- All products come with a 3-year limited warranty
- We conform to all Australian and International safety standards.

## Quality Management

We pride ourselves on our quality service and efficient management.

- We have a dedicated management, sales and production team servicing many valued distributors and customers throughout the world.
- Our management ethos is simple: uncompromising first-class service, quality products, quality design; always available, 7 days a week.

Innovation, quality and power are key components in all our units. Combining excellent value with expertise from technicians and leading biologists, we offer a diverse range of professional and specialist Electric Fly Killers. We are passionate about flying insect control, guaranteeing that you receive the very best units built to the highest specification.

## Quality Service

Please don't hesitate to contact us for more information on our people, products or organization.

- We pride ourselves on fast, reliable and efficient delivery of our products through most countries worldwide.
- We have a comprehensive, easy-to-use website providing detailed product descriptions and information about our company.
- To purchase one of our high quality products please contact us directly or one of our many distributors.

**ALL UNITS ARE IN COMPLIANCE WITH THE RELEVANT INTERNATIONAL LEGISLATION. ALL MODELS COME WITH A 3-YEAR GUARANTEE (EXCLUDING CONSUMABLES).**

## Professional Sticky Traps

Find us on:  Twitter  Facebook

Our Professional Sticky Traps are high quality units combining advanced glue board technology with slim-line designs.

They catch insects securely allowing units to be placed closer to sensitive areas. They do not have an electric killing grid making them silent, discreet and hygienic whilst catching all sizes of insects including smaller species such as Fruit Flies.

Their consumables can easily and quickly be accessed without the need for a tool.

# Professional Sticky Traps

Find us on:  Twitter  Facebook

Attractive, slim, wall-mounted (free standing bracket available), compact and unobtrusive, this unit is ideal for use in food preparation areas.

Chameleon® 1x2 units are ultra-slim, easy to maintain, compact and unobtrusive and only require an occasional change of glue boards.

With the Chameleon® 1x2, insects remain intact when caught in the capture zone. No noise, no smell, no problem. This allows the systems to be placed closer to sensitive areas.

Chameleon units from this range use interchangeable tubes and sticky boards to minimise stocking requirements.

## Chameleon® 1x2

- Powered by an electronic ballast

The Sunburst® TAB is the latest addition to the Sunburst range. It is destined for catering outlets in both front and back-of-house areas thanks to its concealed fly catch behind a brushed stainless steel cover.

Versatile, it can be wall-mounted vertically and horizontally or suspended from the ceiling. A high quality 24 Watt compact tube powered by an electronic ballast and backed by an aluminium reflector ensures optimum fly control and reduced electricity costs.

## Commercial Electronic Fly Killers

The Electronic Fly Killers use powerful tubes to attract flying insects onto a high voltage killing grid to eradicate them. The insects subsequently fall into a catch-tray.

They are designed with both the professional technician and the end-user in mind.

They combine robust and powerful designs with a choice of either wall-mounted, ceiling-suspended or freestanding options.

# Professional Electronic Fly Killers

Find us on:  Twitter  Facebook

The range of professional Electronic Fly Killers ensure the highest level of protection in high pressured areas. Utilising a high voltage killing grid, insects are eradicated, subsequently falling into a catch-tray.

We have been developing world leading EFKs for over 25 years with both the professional technician and the end-user in mind. They combine robust and powerful designs with a choice of either wall-mounted, ceiling-suspended or freestanding options.

# Professional Electronic Fly Killers

Find us on:  Twitter  Facebook

This all-metal electronic fly killer combines robustness and power with energy-efficient and environmentally responsible technology making it the ideal choice for large open industrial areas.

It features new higher energy efficient UVA tubes powered by a state of the art electronic ballast for optimum fly control performance with low running costs and reduced materials (glass & mercury).

Additional features:

- Unique transformer - minimises shattering of insects
- Front guard lockable in open position - facilitates servicing
- 'Power-on' and 'grid-on' warning lights - inspection at a distance
- Spring-loaded removable killing grid - easy cleaning
- Choice of mounting option - ease of placement

## Bali Style Lantern Outdoor Electric Insect Killer

Australian made superior quality,  
exported throughout the world

Totally weather proof with powerful light and heavy  
duty power transformer

Unlike chemicals, insects can not become resistant  
to electrocution

Low running costs

Compared to many competitors our products have  
the most effective insect killing rates in the world

Ideal for all outside areas - entertain in peace  
without mosquitoes and other annoying insects

Illuminates paths along walkways

Our unique ultra violet "Black light" tubes are one of  
the most effective "insect attracting" tubes on the  
market - many cheaper brands typically use inferior  
tubes that attract fewer insects

No cheap inferior plastic parts that break  
down with ultra violet light or sunlight

## Specialist Range

The specialist range provides special safety features such as high IP ratings and flameproof electrical enclosures giving you protection against the most hazardous and potentially dangerous areas.

The units are built to the highest possible specifications and accredited to the ultimate safety certification for electrical equipment.

This means that sensitive and often highly dangerous areas (ATEX classified zones) can be protected without compromising safety standards or insurance requirements.

## Specialist Range

Find us on:  Twitter  Facebook

This custom-designed unit has been exclusively engineered to allow protection in areas where gas and vapour are present such as: distilleries and in the petrochemical and pharmaceutical industries.

The Chameleon® EXG is made to comply with exacting ATEX standards (ATEX Directives 99/92/EC and 94/9/EC) and is made from the highest quality materials to give a fully corrosion-resistant construction using 304-brushed stainless steel and Marine-grade aluminium alloy. It is suitable for use in zones 2 and 1 - atmospheres where flammable gases/vapours are likely to arise and zones 22 and 21 - atmospheres where combustible dust/powder may be present.
