

# AUSTRALIAN MADE CLEVER COOKWARE

AUSSIE DUO  
REVIVES  
LEADING  
AUSSIE  
COOKWARE  
BRAND

In 1967 Gloda Manufacturing P/L was established and manufactured Aluminium cookware which was sold through Myer and David Jones stores until they were replaced by imported cookin products from China in the mid 80s.

The **Clever Cookware** range of high Quality Duo-Clad stainless steel cookware - pots & pans we sold made available through retail chains, only through home shows, it was believed that as **Clever Cookware** was stainless steel it was more a specialty range, and was not looking to compete with the mass produced imported products.

R.E.Davison continued to manufacture **Clever Cookware** products until December 2017,

and in 2018 OZ 21 Stainless Cookware, owned by Bruce Harding and Phil Davidson bought the **Clever Cookware** brand and all the manufacturing equipment so they could produce **Clever Cookware** Products with a view to make the top quality **Clever Cookware** products available to anyone who appreciate quality cookware.

In October 2018 **Clever Cookware** moved to Lawson in the Blue Mountains NSW and begun manufacturing their new range of Stainless Steel cookware. Using the latest technology allows the Stainless Steel to work without the aid of other metals, and contains No Nickel, very Clever development in the 100 years of stainless steel.

## CLEVER COOKWARE 4622 STAINLESS PRODUCTS

CLEVER COOKWARE'S NEW RANGE USES THE UNIQUE GRADE OF STAINLESS STEEL. WHY IS 4622 STAINLESS STEEL SUPERIOR TO 18/10 STAINLESS STEEL CURRENTLY USED IN COOKWARE.

- Contains No Nickel
- Transfers heat evenly with no hotspots
- less distortion due to higher heat transfer
- Once Polished provides a Non Stick surface
- Once pressed becomes very ridgit
- Will not buckle if cold water is applied under high heat
- Works on all cooktops including Induction
- Lifetime Warranty
