

TOOL BAGS

Beehive Vinyl Products Pty Ltd is an Australian owned and operated company based in Townsville, North Queensland, operating since 1978.

NOTE: Trade pricing may be available to approved companies / businesses.

The original Beehive **Heavy Duty** Tool bags are made to survive the toughest of working conditions. No matter what job you are doing or what tools you have, we have a bag for you.

Our Patented Tool bags are manufactured from a specialised heavy duty, fire resistant, high quality vinyl that is predominantly manufactured in Australia by an Australian owned company. These materials are tested to AS2001.2.3 tensile strength standard, BS 3424.5 Tongue tear standard, ASI441.6 flex cracking standard and flame retardant tested using parts 2 & 3 of ASI530 testing standard to meet commercial building standards as per BCA. **BEWARE** of imitation bags that are poorly made using low quality, inferior materials.

Our tool bags, crib bags and esky bags are preferred by many of Australia's leading mining companies, as well as resellers such as Electrical equipment retailers, tool and construction equipment retailers and hardware stores. Known for their durability and strong construction, they are built to last.

As we manufacture our own bags in our factory in Townsville, Qld, we can make any custom bags in different colours to suit our customers. We can also provide bags with custom printing such as company logos, workers names etc. If our standard range does not suit you, tell us what you want as we can make custom bags to suit your specific requirements.

BEEHIVE TOOL BAGS.....STILL THE BEST & TOUGHEST DAMN TOOL BAG IN AUSTRALIA.

Made in Australia, by Australians, for Australian conditions

100% FULLY LOCKABLE RANGE OF TOOL BAGS

FM.OP.5053 V22
APPROVED 03/08/2023

SMALL TOOL BAG with DOUBLE FRONT POCKETS

External Dimensions: 330mm L x 175mm (inc pockets) W x 200mm H

Internal Dimensions: 330mm L x 130mm W x 200 H

PART NO: WMC

Features Include:

- Cushioned anti-slip shoulder pad with adjustable 50mm webbing strap
- 2 Front pockets with a centre divider
- 5 Tool pockets on back wall of tool bag
- 5 Tool pockets on back centre divider
- Heavy duty hook & loop fastening tape to close main lid flap with reflective tape
- Internal HDPE base
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & the lacquer coating is non solvent based
- Silver prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R

SHORT VINYL TOOL BAG

External Dimensions: 330mm L x 260mm W

(inc pocket) x 250 H

Internal Dimensions: 330mm L x 200mm W x 250 H

PART NO: QNI

Features Include:

- 8 Individual tool pockets - 4 on both the front and back internal wall of the tool bag
- Single large front pocket
- Heavy duty hook & loop fastening tape close main lid flap
- Silver prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R
- Clear document sleeve on front flap
- Centre divider
- Cushioned anti-slip padded shoulder pad with 50mm webbing strap
- Internal HDPE base
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & the lacquer coating is non solvent based

SMALL TOOL BAG with DOUBLE FRONT POCKETS HMB

External Dimensions: 330mm L x 175mm (inc pockets) W x 230mm H

Internal Dimensions: 330mm L x 130mm W x 230mm H

PART NO: WMCHMB

Features Include:

- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Moulded HDPE base gives extra reinforcing & protection to the bottom of your tool bag
- Cushioned anti-slip shoulder pad with adjustable 50mm webbing strap
- 2 Front pockets with a centre divider
- 5 Tool pockets on back wall of tool bag
- 5 Tool pockets on back centre divider
- Heavy duty hook & loop fastening tape to close main lid flap with reflective tape
- Reinforced HDPE base
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & the lacquer coating is non solvent based

SHORT VINYL TOOL BAG with HMB

External Dimensions: 330mm L x 260mm (inc pocket) W x 280 H.

Internal Dimensions: 330mm L x 200mm W x 280 H

PART NO: QNIHMB

Features Include:

- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Moulded HDPE base gives extra reinforcing & protection to the bottom of your tool bag
- 8 Individual tool pockets - 4 on both the front and back internal wall of the tool bag
- Single large front pocket
- Heavy duty hook & loop fastening tape to close main lid flap
- Silver prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R
- Clear document sleeve on front flap
- Centre divider
- Cushioned anti-slip padded shoulder pad with 50mm webbing strap
- Extra Reinforced HDPE base
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, ASI441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & the lacquer coating is non solvent based

MINI SIDE POCKET DOUBLE BASE HMB TOOL BAG

External Dimensions: 450mm L (inc pockets) x 260mm W x 280mm H.

Internal Dimensions : 330mm L x 200mm W x 280mm H

PART NO: MINI SP-DBHMB

Features Include:

- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Moulded HDPE base gives extra reinforcing & protection to the bottom of your tool bag
- 8 Individual tool pockets - 4 on both the front and back internal wall of the bag with a centre divider in the middle
- 2 Side pockets on either end of the bag with hook & loop fastening tape to close lid flaps
- Single large front pocket
- Heavy duty hook & loop fastening tape to close main lid flap with reflective tape
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Extra reinforced HDPE bottom
- Welded and stitched using chemical & UV resistant thread
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard, AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, ASI441.6 flex cracking standard. To meet Australian Building codes
- The PVC used is free of BPA, lead & other heavy metals & lacquers and is non solvent based

MINI SIDE POCKET DOUBLE BASE

External Dimensions: 450mm L (inc pockets) x 260mm W x 250mm H.
Internal Dimensions 330mm L x 200mm W x 250mm H

PART NO: MINI SP-DBRT

Features Include:

- 8 Individual tool pockets - 4 on both the front and back internal wall of the bag with a centre divider in the middle
- 2 Side pockets on either end of the bag with hook & loop fastening tape to close lid flaps
- Single large front pocket
- Heavy duty hook & loop fastening tape to close lid flap with reflective tape
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Extra reinforced HDPE bottom
- Welded and stitched using chemical & UV resistant thread
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard, AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard. To meet Australian Building codes
- The PVC used is free of BPA, lead & other heavy metals & lacquers and is non solvent based

FULLY LOCKABLE COMMISSIONING

External Dimensions: 330mm L x 175mm W (inc pocket) x 270mm H
Internal Dimensions: 330mm L x 130mm W x 270mm H

PART NO: FLZCOM

Features Include:

- 5 tool pockets on back wall of tool bag
- 5 tool pockets on back & 3 pockets on front centre divider
- 100% fully lockable with YKK zips with lockable slides
- Heavy duty hook & loop to close front lid with reflective tape
- 50MM webbing cushioned anti-slip padded shoulder strap
- Internal HDPE base
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard, AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard. To meet Australian Building codes.
- Vinyl is anti-fungal and UV resistant
- The PVC used is free of BPA, lead & other heavy metals & lacquers and is non solvent based

FULLY LOCKABLE COMMISSIONING HMB

External Dimensions: 330mm L x 175mm W (inc pocket) x 270mm H
Internal Dimensions: 330mm L x 130mm W x 270mm H

PART NO: FLZCOMHMB

Features Include:

- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Moulded HDPE base gives reinforcing & protection to the bottom of your tool bag
- 5 tool pockets on back wall of tool bag
- 5 tool pockets on back & 3 pockets on front centre divider
- 100% fully lockable with YKK zips with lockable slides
- Heavy duty hook & loop to close front lid with reflective tape
- 50MM webbing cushioned anti-slip padded shoulder strap
- HDPE reinforced bottom
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard, AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard. To meet Australian Building codes.
- Vinyl is anti-fungal and UV resistant
- The PVC used is free of BPA, lead & other heavy metals & lacquers and is non solvent based

CANVAS DOUBLE BASE TOOL BAG

External Dimensions: 480mm L x 260mm W (inc pocket) x 250mm H

Internal Dimensions: 480mm L x 200mm W x 250mm H

PART NO: CDB

Features Include:

- Centre divider and 2 front pockets
- Extra reinforced HDPE base
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Heavy duty hook & loop fastening tape to close main lid flap
- 12 Individual tool pockets - 6 on the front and 6 on the back of the internal walls of the tool bag
- Stitched using chemical & UV resistant thread
- Manufactured from predominantly Australian Made heavy duty reinforced 12oz ripstop canvas
- Silver prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R

DOUBLE BASE TOOL BAG

External Dimensions: 480mm L x 260mm W (inc pocket) x 250mm H

Internal Dimensions: 480mm L x 200mm W x 250mm H

PART NO: DBRT

Features Include:

- 12 Individual tool pockets - 6 on the front and 6 on the back wall of the tool bag
- 2 front pockets
- Welded and stitched using chemical & UV resistant thread
- Heavy duty hook & loop fastening tape to close main lid flap
- Silver prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Extra reinforced HDPE base
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of ASI530 standard to meet Australian Building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, ASI441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & lacquer coating is non solvent based

DOUBLE BASE WITH BUCKLES

External Dimensions: 480mm L x 260mm W (inc pocket) x 250mm H

Internal Dimensions: 480mm L x 200mm W x 250mm H

PART NO: DBB

Features Include:

- 12 Individual tool pockets - 6 on the front and 6 on the back wall of the tool bag
- Side release buckles on 2 front pockets
- Heavy duty hook & loop fastening tape to close main lid flap
- Welded and stitched using chemical & UV resistant thread
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Extra reinforced HDPE base
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of ASI530 standard to meet Australian Building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 Tongue tear standard, ASI441.6 flex cracking standard
- Silver prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R
- The PVC vinyl used is free of BPA, lead & other heavy metals & lacquer coating is non solvent based

DOUBLE BASE with HARD MOULDED BASE TOOLBAG

External Dimensions: 480mm L x 260mm W (inc pocket) x 280mm H

Internal Dimensions: 480mm L x 200mm W x 280mm H

PART NO: DBHMB

Features Include:

- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Moulded HDPE base gives extra reinforcing & protection to the bottom of your tool bag
- 12 Individual tool pockets - 6 on the front and 6 on the back wall of the tool bag & 2 front pockets
- Welded and stitched using chemical & UV resistant thread
- Heavy duty hook & loop fastening tape to close main lid flap
- White prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of ASI530 standard to meet Australian Building codes also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, ASI441.6 flex cracking standard

DOUBLE BASE with HARD MOULDED BASE & RUBBER HANDLES TOOLBAG

External Dimensions: 480mm L x 260mm W (inc pocket) x 280mm H

Internal Dimensions: 480mm L x 200mm W x 280mm H

PART NO: DBHMBRH

Features Include:

- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Moulded HDPE base gives extra reinforcing & protection to the bottom of your tool bag
- Heavy duty rubber carry handles at each side of the bag - easier to lift and reduces back injury
- 12 Individual tool pockets - 6 on the front and 6 on the back wall of the tool bag
- 2 front pockets
- Welded and stitched using chemical & UV resistant thread
- Heavy duty hook & loop fastening tape to close main lid flap
- White prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian Building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard

LADY TRADIE - DOUBLE BASE WITH HMB

External Dimensions: 480mm L x 260mm W (incl pockets) x 280mm H

Internal Dimensions: 480mm L x 200mm W x 280mm H

PART NO: DBHMBRHPINK or DBHMBRHPURPLE

Double Base with a hard HDPE moulded base and rubber handles

Features Include

- 12 Individual tool pockets - 6 on the front and 6 on the back wall of the tool bag
- Welded and stitched using chemical & UV resistant thread
- Heavy duty hook & loop fastening tape to close main lid flap
- Silver Hi Vis reflective tape meets retroreflective requirements of AS/NZS 1906.1 Class 1W (WZ) - welded (not stitched) to front flap
- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Heavy duty rubber carry handles at each side of the bag - easier to lift and reduces back injury
- Moulded HDPE base gives extra reinforcing & protection to the bottom of your tool bag
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Pink material is 650gsm PVC coated rip-resistant polyester and UV stabilised and fire retardant
- Purple material 630gsm PVC coated polyester and is UV & FR treated

DOUBLE BASE with HMB & RUBBER HANDLES QLD & NSW

External Dimensions: 480mm L x 260mm W (inc pocket) x 280mm H

Internal Dimensions: 480mm L x 200mm W x 280mm H

PART NO: DBHMBRHQLD or DBHMBRHNSW

Features Include:

- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Moulded HDPE base gives extra reinforcing & protection to the bottom of your tool bag
- Heavy duty rubber carry handles at each side of the bag - easier to lift and reduces back injury
- 12 Individual tool pockets - 6 on the front and 6 on the back wall of the tool bag
- 2 front pockets
- Welded and stitched using chemical & UV resistant thread
- Heavy duty hook & loop fastening tape to close main lid flap
- White prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R

AUSTRALIAN MADE

PATENTED

FULLY LOCKABLE DOUBLE BASE TOOL BAG

External Dimensions: 480mm L x 270mm W (inc pocket) x 280mm H

Internal Dimensions: 480mm L x 200mm W x 280mm H

PART NO: FLZDB

100% Fully lockable version of our original Double Base tool bag, **plus 30mm deeper**.

Perfect for the FIFO worker & to stop your tools from going missing on site.

Internally the pocket layout and divider remains the same as the Double Base tool bag. Externally the changes to the front pockets and main opening compartment gives you the ability to lock and secure all your valuable tools.

Extra Features Include:

- Heavy duty YKK zips with lockable slides are included on the front lid and the front external pockets
- Zip slides have woven tags for easier opening & closing of the zips
- Heavy duty rubber carry handles at each side of the bag - easier to lift and reduces back injury
- Front external pockets are 40mm up from the base of the tool bag to prevent wearing out on the bottom
- Extra reinforcing layer of vinyl at the base of the external front pockets for added protection against sharp and heavy tools
- Increased width on external front pockets, now 60mm allowing extra room for all your tools
- Extra 30mm depth in over-all bag - provides more storage room
- White Hi Vis reflective tape meets retroreflective requirements of ASNZS 1906.1 Class IW (WZ) - welded (not stitched) to front flap
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is also flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard
- The PVC vinyl used is free of BPA, lead & other heavy metals & the lacquer coating is non solvent based

INTERNAL DOUBLE BASE TOOLBAGS POCKET LAYOUT

FULLY LOCKABLE HARD MOULDED

External Dimensions: 480mm L x 270mm W (inc pocket) x 280mm H

Internal Dimensions: 480mm L x 200mm W x 280mm H

PART NO: FLZDBHMB

Fully lockable version of our Double Base tool bag, with a hard HDPE moulded base.

Features Include:

- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Moulded HDPE base gives extra reinforcing & protection to the bottom of your tool bag
- Heavy duty rubber carry handles at each side of the bag - easier to lift and reduces back injury
- Front external pockets are 40mm up from the base of the tool bag to prevent wearing out on the bottom
- Increased width on external front pockets, now 60mm allowing extra room for all your tools
- White Hi Vis reflective tape meets retroreflective requirements of ASNZS 1906.1 Class IW (WZ) - welded (not stitched) to front flap
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard
- The PVC vinyl used is free of BPA, lead & other heavy metals & the lacquer coating is non solvent based

HARD HDPE MOULDED BASE

BACKPACK VINYL TOOL BAG

External Dimensions: 325mm L x 190mm W (incl pocket) x 430mm H

Internal Dimensions: 325mm L x 140mm W x 430mm H

PART NO: BPACK

Features Include:

- 10 Internal pockets on each side
- Heavy-duty base and heavy duty YKK zips with lockable zip slides
- Large gusseted front pocket with hook & loop fastening tape
- OH&S preferred - put's less strain on your shoulders by distributing weight evenly across your back
- Webbing loop on the top
- HDPE inserts for stiffening back
- Fully padded and adjustable shoulder straps (made from 50mm webbing) for ergonomic fit
- Silver Prismatic reflective tape on the front flap - exceeds Aust standards AS/NZ 1906.4 Class R
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl (blue & yellow) with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian Building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & the lacquer coating is non solvent based

SIDE POCKET DOUBLE BASE

External Dimensions: 600mm L (inc pockets) x 260mm W x 250mm H

Internal Dimensions: 480mm L x 200mm W x 250mm H

PART NO: SPDBRT

Features Include:

- Centre divider and 2 front pockets
- 2 Side pockets on either end of tool bag
- 12 Individual tool pockets - 6 on the front and 6 on the back wall of the tool bag
- Heavy duty hook & loop fastening tape & side release buckles to close lid flap
- Extra reinforced HDPE Base
- Welded and stitched using chemical & UV resistant thread
- Cushioned anti – slip shoulder pad with 50mm webbing strap
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, ASI441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & lacquer coating is non solvent based

BOILER MAKERS TOOL BAG

External Dimensions: 600mm L (inc pockets) x 260mm W x 250mm H

Internal Dimensions: 480mm L x 200mm W x 250mm H

PART NO: BBAGRT

Features Include:

- Heavy duty hook & loop fastening tape & two side release buckles to close main lid flap
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Silver prismatic reflective tape - exceeds Aust standards AS/NZ 1906.4 Class R
- Grey side and front pockets
- 3 large internal pockets on back wall
- 4 large internal pockets on front wall
- Welded and stitched using chemical & UV resistant thread
- Extra reinforced HDPE base
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, ASI441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & the lacquer coating is non solvent based

SIDE POCKET DOUBLE BASE with HMB & RUBBER HANDLES

External Dimensions: 600mm L (inc pockets) x 260mm W x 280mm H

Internal Dimensions: 480mm L x 200mm W x 280mm H

PART NO: SPDBHMBRH

Features Include:

- Fully moulded wrap around hard HDPE base added to the bottom of the tool bag
- Moulded HDPE base gives extra reinforcing & protection to the bottom of your tool bag
- Heavy duty rubber carry handles at each side of the bag - easier to lift and reduces back injury
- Centre divider and 2 front pockets
- 2 side pockets on either end of tool bag
- 12 Individual tool pockets - 6 on the front and 6 on the back wall of the tool bag
- Heavy duty hook & loop fastening tape & side release buckles to close lid flap
- Extra reinforced HDPE Base
- Welded and stitched using chemical & UV resistant thread
- Cushioned anti – slip shoulder pad with 50mm webbing strap
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal protection as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, ASI441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & lacquer coating is on solvent based

SIDE POCKET DOUBLE BASE TYPE2

External Dimensions: 600mm L (inc pockets) x 260mm W x 250mm H

Internal Dimensions: 480mm L x 200mm W x 250mm H

PART NO: SPDB2.RT

Features Include:

- Heavy duty 100mm hook & loop fastening tape to close lid flap
- A3 size clear document holder inside of lid
- 2 Front pockets and 2 side pockets with full vertical hook & loop fastening tape on flaps
- 6 Tool pockets on both front and back internal walls of tool bag
- Centre divider pocket with hook & loop fastening tape closer and tabs
- 4 large tool pockets on front of divider
- 10 Varied tool pouch sizes on back of centre divider
- Extra reinforced HDPE base
- Cushioned anti-slip shoulder pad with 50mm webbing strap
- Adjustable inside strap with buckles to prevent bag flaring
- Silver prismatic reflective tape exceeds AS/NZ 1906.4 Class R
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal additives as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian Building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard

LOCKABLE SIDE POCKET DOUBLE BASE TYPE2

External Dimensions: 600mm L (inc pockets) x 260mm W x 280mm H

Internal Dimensions: 480mm L x 200mm W x 280mm H

PART NO: LZSPDB2.

Features Include:

- Lockable YKK zip around the top lid creating a lockable bag
- Mesh pouch on a side pocket suits phones (inc. smart phones)
- Cargo webbing tab loops on lower front flap to make lockable flap using padlocks
- 2 Front and 2 side pockets with full hook & loop fastening tape flap lids
- A3 size clear document holder inside of lid
- 4 large tool pockets on front of divider
- 6 Tool pockets in both front and back walls of tool bag
- Centre divider pocket with hook & loop fastening tape closer & tabs
- 10 Varied tool pouch sizes on back of centre divider
- Extra reinforced HDPE base
- Cushioned anti-slip shoulder pad with 50mm webbing straps
- Adjustable inside strap with buckles to prevent bag flaring
- Standard black and yellow colour combination
- Silver prismatic reflective tape on side pockets and front flap
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl with anti fungal additives as well as being UV resistant
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard
- The PVC used is free of BPA, lead & other heavy metals & the lacquer coating is non solvent based

****NOTE: LOCKS NOT INCLUDED**

INTERNAL LAYOUT OF BEEHIVE PLATINUM LOCKABLE ZIPABLE SIDE POCKET DOUBLE BASE TYPE 2

PLATINUM TOOL BAG

External Dimensions: 620mm L (inc pockets) x 270mm (inc pockets) W x 280mm H

HDPE HARD MOULDED BASE OPTION

PART NO: TBHMBASE

Hard moulded HDPE bases are available with most of our toolbag range.

The hard moulded HDPE base will be sewn to the bottom of the tool bag, giving you extra reinforcing and double protection for the base.

This base can be added to other stock bags as a custom toolbag and costs for this will vary.

Please contact us to discuss this option with your tool bag order.

CARRY HANDLES OPTION

PART NO: TBRUBH

Heavy duty rubber carry handles can be added to the ends of some suitable bags giving you an extra option for lifting your tool bag. These carry handles will make it easier & safer to lift the tool bag. Standard bags that do not have side pockets can have handles attached during the production process.

Note that some side pocket bags already have handles attached as standard.

We can attach handles to other side pocket bags however extra costs may apply for a custom make. Please contact us to discuss this option with your tool bag order.

SELF RESCUE POUCHES

External Dimensions: 80mm H x 150mm W x 190mm L

PART NO: SELFRESCUER

Self Rescuers Pouches provide protection for your Self Rescuer kit and include a belt hanger for a more comfortable way to carry.

Features Include:

- Stainless steel eyelets
- Heavy duty hook & loop fastener tape
- Silver prismatic reflective tape across the front
- Belt hanger pouch on the back
- Manufactured from predominantly Australian Made heavy duty reinforced ripstop vinyl
- Vinyl material is flame retardant tested to parts 2 & 3 of AS1530 standard to meet Australian Building codes. Also tested to AS2001.2.3 tensile strength standard, BS 3424.5 tongue tear standard, AS1441.6 flex cracking standard
- Vinyl is UV and anti-fungal resistant
- The PVC used is free of BPA, lead & other heavy metals & lacquer coating is non solvent based
