BeaverFit originated from a family of Steel Fabricators, specialising in the industry since 1947.

In 2006, Tom Beaver built a robust and innovative rig to train for the Arch challenge, made entirely from materials used by the family business.

Tom Beaver successfully introduced his product of excellence to the military. Thus, the birth of BeaverFit and further development of innovative products and fitness solutions - dominating the industry since 2010.

Co-founders, Tom and Jim Beaver further developed the product line to introduce the worlds first ever container gym solution - the FOB Locker. Since 2012, over 500 of these solutions have been deployed around the UK and Europe.

In 2015, the industry saw the introduction of BeaverFit Special Operations Equipment (SOE), a sister company to BeaverFit Ltd, supplying sought after and unique Special Operations Equipment, from Training Towers through to Live Fire Shoot Houses.

BeaverFit UK joined forces with two veterans from the USA, forming our sister company BeaverFit North America LLC and imminently winning their first contract with the U.S Marine Corps to supply 300 FOB Lockers.
