1m Boom

1.6m Boom

2.2m Boom

1.6m Mast

2.2m Mast

## FastFit Davit

SafetyLink's NEW patent pending FastFit Davit provides access to raise or lower workers from heights (roof tops). The FastFit Davit is a temporary anchor suitable for having one user suspended from the shuttle and a second user connected to either of the secondary attachment points (Mast or Base). With a maximum height and reach of 2.2 metres the Davit allows access over parapet walls and balustrades with ease.

- Australian Made.
- Patent Pending.
- Shuttles traverse back and forth, for maximum adjustment.
- Davit breaks down into 3 easily transportable components.
- Can be used for material handling of up to 400kg (Refer installation handbook for further details).
- Three Boom sizes 1m, 1.6m and 2.2 metres. Two Mast heights 1.6m or 2.2 metres.
- Choice of retro fit or pre cast mounted. Base options include both fixed and removable floor mount and fixed wall mount for base access.
- The FastFit Davit is rated for one user with a maximum weight of 150kg suspended from the shuttle and one user connected to either of the secondary attachment points.
- The FastFit Davit temporary anchor system is compliant with AS/NZS 5532, EN795.
