

# GREENVALLEY CHOPPING BOARDS

BEAUTIFUL CHOPPING BOARDS MADE FROM CAMPHOR LAUREL

## ABOUT US

A quality product for your kitchen and dining experience. Greenvalley specialises in Camphor Laurel log exports and our chopping boards help you to create that experience. We configure each and every part of the board, creating wholesome products that cater to your everyday dining needs. Fresh food tastes infinitely better when prepared using our Australian made boards. Enjoy fresh, tasty food by using one of the best chopping boards the industry has to offer.

Here at Greenvalley, we produce the best from us for the best of you. These chopping boards aren't all talk - we hand make them using locally sourced Australian timber. Our boards contain natural antibacterial properties to keep your food fresh and a beautiful reddish wood grain and pleasant aroma from natural grape seed oil. Forget the average knockoff plastic boards, or the low-quality imports. We are here

to provide a quality, long lasting product.

We aren't chopping down important trees. Our wood species Camphor Laurel is an introduced Australian timber which requires logging to maintain the health of Australian native forests. We work in line with the environmental goals of local councils to log these trees and save our environment.

Having spent a lot of time in the kitchen myself, time and time again I have found it irritating using plastic boards which don't deliver the needed quality and aesthetic appeal required for a premium food experience. So I decided to take matters into my own hands and create my own chopping boards - boards that were dense and flavourful, rich in colour and design. Now my dream has become a reality. What are you waiting for? Make it your reality as well.

## WHY DO WE LOVE CAMPHOR LAUREL?

- COLOURFUL AND BEAUTIFUL REDDISH WOOD GRAIN;
- PLEASANT AROMA;
- NATURAL ANTIBACTERIAL PROPERTIES;
- SUITABILITY FOR ALL SORTS OF HYGIENIC HOUSEHOLD APPLICATIONS.
