📍 Unit 11/61-71 Beauchamp Road Matraville NSW 2036 Australia

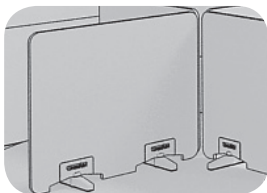

mumblebydesign.com

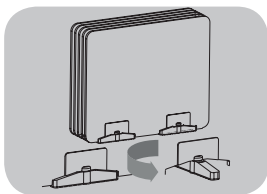

The lightweight portable screen can easily be placed on any desk to provide a private workspace, minimising distraction. Perfect for individual activities and tests.

The screen fits any desk/surface – with no mounting, clamping or bolting. Unlike other dividing screens, it does not need to be customised to fit the vast range of desk styles and configurations.

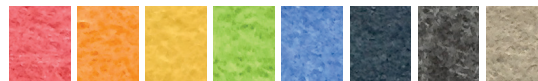

The sound absorbing screen offers additional acoustic control in a space where noise levels can be distracting. (NRC 0.85)

The (Patent Pending) stand mechanism is simple to set up, take down and pack away. Screens can be stacked flat for easy storage in their handy storage bag.

Specifications

- 393mm (h) x 476mm (w) x 24mm (d)
Size can be customised upon special request
- 9mm 100% polyester fibre panel
