A BENDING COMPANY

*Innovative Tube
& Pipe Bending
Solutions Tailored
to Your Needs!*

A Bending Company Pty Ltd is a dynamic mid-sized 'build to print' engineering company specializing in structural tube, pipe and section components, formed and fabricated to customers' standards. Established in response to a marketplace demanding a higher level of service throughout industry, we are proud to have achieved a significant share of this market due to our ability to listen and respond to the needs of our customers. Since being founded in 1991 the company has offered professional engineering services to a wide variety

of clients throughout Australia and overseas. We have rapidly grown to become the preferred supplier for many of the leading Australian manufacturing companies. Our services are used in industry sectors as diverse as Oil & Gas, Mining, Manufacturing, Commercial Construction, Defence, Infrastructure and Utilities. We have become widely known for our willingness to take on the most challenging work and delivering results for our customers.

We Are The Problem Solver!
