# CUSTOM DESIGN AND MANUFACTURE

Sonata Furnishings are proud to offer a unique custom design service for Healthcare textiles. Drawing on 40 years of experience we can work with you to create exclusive fabrics for your Healthcare project.

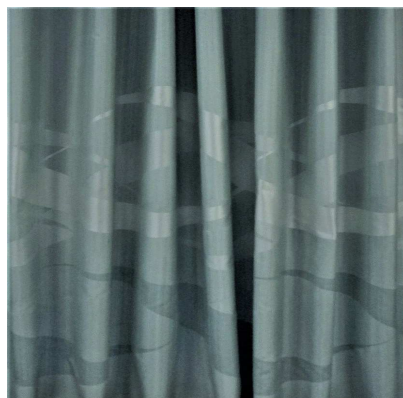

Starting with CAD designs through to sample meterage and made up products for your curtains, bedscreens and coordinating bedcovers, Sonata fabrics are 100% designed and manufactured in Australia. Not only will the fabrics look and feel great but they are constructed from our unique flame retardant polyester which will withstand the rigours of a commercial laundry. Our fabrics are tested and pass all relevant Australian Standards including AS 1530 Parts 2 and 3.
