Natural Treats

THE RANGE

A wide selection of Natural Treats

Our extensive range of Natural Treats come in different flavours and textures. Whether it is training treats or a chewy treat, you can always find a few Natural Treats that either your puppy, adult or older dogs will love.

All with the highest quality and level of nutrients that your dogs deserve as a daily reward.

ABOUT US

Natural Treats by The Pet Project has been created with the purpose of providing our pets with a healthy reward.

A healthy reward that's made right here in Australia by locals who are as proud of their produce as we are, supporting local communities.

A healthy reward that is single ingredient with no fillers, additives or preservatives giving owners peace of mind in what they are feeding their pets.

A healthy reward that's air dried raw to lock in the flavour and nutrients, creating a tasty, healthy treat.

A healthy reward we know your pet will love.

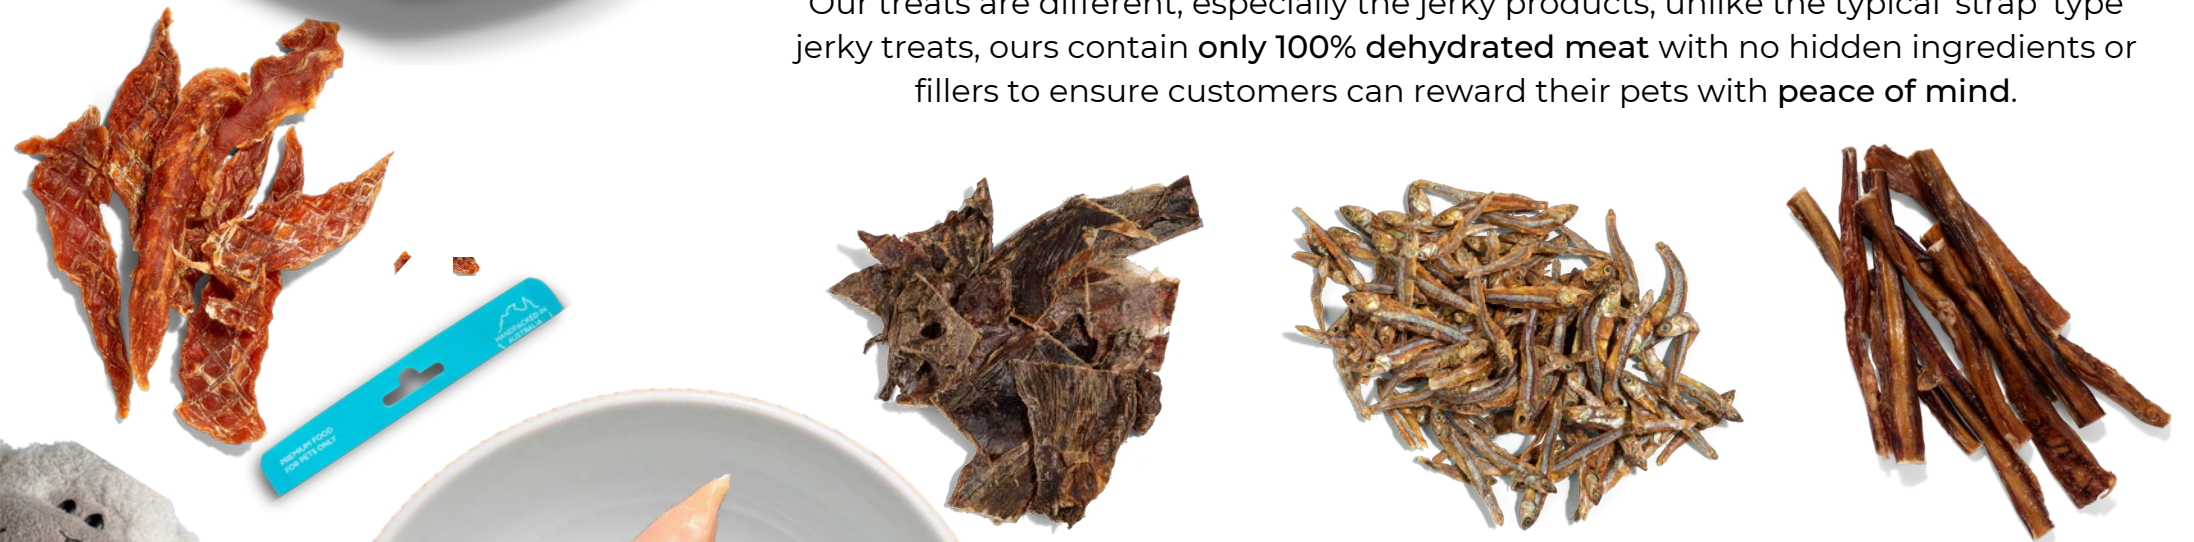

A Wide Selection

We have a great selection of unique products. You'll find something in our range that your pet loves, from long lasting Roo Tail Tips, to tasty Chicken Fillet and Lamb Puffs.

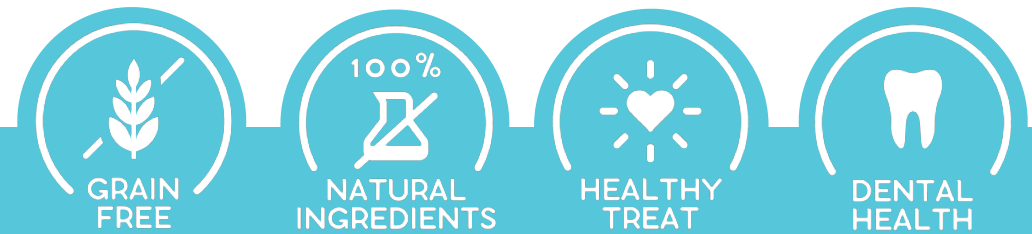

100% Air Dried Australian Meat

Our treats are different, especially the jerky products, unlike the typical 'strap' type jerky treats, ours contain only 100% dehydrated meat with no hidden ingredients or fillers to ensure customers can reward their pets with peace of mind.

All treats are single ingredient, with no additives or preservatives and air dried to lock in the nutrients.

Delicious treats with great health benefits
